Observation of you DNA (hold to the light)	anal AMCLeophandW A

Analysis Questions

- 1. Where is DNA located in the cell?
- 2. What two barriers had to be destroyed to access the DNA?
- 3. What lab procedure(s) destroyed these barriers?
- 4. Why did the DNA not dissolve in the solution?
- 5. Where did the DNA collect?
- 6. What does DNA look like?
